

## Sustainability Statement

Sustainability (economic, environmental) is an important part of our philosophy in facility planning and development, urban planning, strategic planning, organizational development and site selection work. We seek to maximize value-added opportunities for all clients and the communities within which they are located. The Canadian Institute of Planners Code of Professional Practice obligates David W. Harrison to, amongst many things, value the natural and cultural environment and assume a role as steward of these environments, balancing preservation with sustainable development. David Harrison has had more than twenty (20) years experience in promoting sustainability:

2008 to present	<ul style="list-style-type: none"> <li>▪ Member of Canadian Institute of Planners National Affairs Committee</li> <li>▪ Chair of CIP's Healthy Communities Committee</li> <li>▪ Coordinated LEED (Leadership in Energy and Environmental Design) for a nursing home project in Sheet Harbour, Nova Scotia.</li> <li>▪ LEED training</li> </ul>
1998 to present	Incorporates environmental sustainability as a key component for all site selection work – with significant achievements, such as the NSCC waterfront campus. Integrates the goals of sustainability and economic viability in all aspects of project planning and community planning.
1997 to 2001	Established Environmental Code of Practice for Nova Learning Inc. – a P3 school developer. Encouraged sound environmental practices in conjunction with developing new schools and encouraged opportunities for environmental education.
1995-1997	As Executive Director of the Nova Scotia Environmental Industry Association (now ESANS) – promoted the development of a vibrant environmental industry sector in Nova Scotia.
1992-1994	As Executive Director of the Dartmouth Chamber of Commerce, managed the “Nova Scotia Business Council on the Environment”, funded by the Sustainability Development Program, to promote environmental awareness in cooperation with Nova Scotia business associations.
1988	As Executive Director of the Dartmouth Chamber of Commerce, formed a Business Environmental Committee – awarded Environmental Control Council Award of Merit for work on hazardous wastes in Burnside Industrial Park, Dartmouth.
